...SO WHAT DO YOU THINK ABOUT VIOLENCE:

ON CHILD ABUSE:
Hey, do you know that:

Child abuse is when someone does things to you that are harmful, unpleasant and painful:

⚠️ When they beat and mistreat you: when someone deliberately hits and hurts you, or humiliates you in different ways...

⚠️ When they shout at you or threaten you: when they hurt your feelings, making you feel sad and frightened...

⚠️ When they do not take proper care of you: when those who should take care of you pay no attention, when they lock you up and not let you go anywhere, so you feel abandoned, lonely and neglected...

⚠️ When they touch your private parts: so you feel terribly ashamed and embarrassed...

Be aware of this:

Abuse may happen to any child, no matter where and how they live! Unfortunately, abuse takes place in the family, at school, on the street, in children’s homes, or elsewhere...

SO REMEMBER:

Abuse is never acceptable and there is no excuse for it!

Abuse IS NOT ALL RIGHT because:

⚠️ It is damaging to your health...⚠️ It affects your childhood, personality, life...

⚠️ It makes you feel anxious and withdrawn, sad, humiliated, and unprotected...

⚠️ It makes you feel guilty for the things you are not responsible for...

⚠️ There is a possibility that in the future you might hurt someone...

AND DO NOT FORGET:

When you are abused, it is never your fault!

YOU HAVE THE RIGHT TO PROTECT YOURSELF FROM ABUSE!!!

Save the Children is an organisation that makes every effort to ensure that your childhood is playful and safe! Its staff work to prevent abuse, and help you to better protect yourself...
WHAT CAN YOU DO:

WHAT CAN BE DONE:
Abuse of children happens throughout the world and it limits and violates your rights. How many times have you heard of or seen a child who was abused and helpless, but was afraid to speak up and had no one to turn to? You can recognize the threats and protect yourself in more than one way - the people who take care of your rights will help you!

**NO ONE SHOULD ABUSE YOU, NO MATTER WHERE YOU ARE!**

We, at Save the Children, together with other adults from your environment who are responsible to hear what problems you are faced with and to protect you, will try to prevent it.

We help in the following ways:

**WE ARE ALERT** and make every effort to recognize and discover child abuse. We are willing to listen to you and try to solve your problem, in order to protect you timely from more serious problems...

**WE TRY TO PREVENT** abuse and violence against children: that can be done if we identify the risks and problems threatening you!

WE TAKE STEPS TO PROTECT YOU when we find out that abuse has taken place. Should it happen that someone hurts you in any way, it must stop and must not happen again!

WE REPORT ABUSE when it happens - we inform people who are responsible for your protection! Speak up, because there is a way to deal with your problem in the least painful manner.

EVEN IF YOU ARE EMBARRASSED AND ASHAMED - DO SPEAK UP!

**ANY FORM OF ABUSE SHOULD BE REPORTED - AND WE WILL FIND THE WAY TO HELP YOU!**

We will help you by:

- Listening to you and trusting you, and dealing seriously with your problem...
- Supporting and encouraging you, and helping you to recover...
- Doing all that is best for you...
- Respecting your wishes and views...
- Trying to find the most appropriate way to involve your parents, caregivers and experts in finding the best solution to your problem...
How should adults conduct in my presence?

You have your rights and adults must protect and respect you!
All adults, and especially those from Save the Children, must by no means violate your rights or act in ways intended to cause you any harm. That means that adults should treat you in the following way:

- They must always respect and listen to you, and offer their support, especially when you turn to them for help.
- They should always protect you and give help when you feel that someone is neglecting or abusing you in any way.
- They should inform you about your rights, explain them to you, and show you how to protect yourself from abuse.
- They must never hit you, or hurt you otherwise.
- They must not spend too much time with you alone or take you home with them.
- They must not exploit you, humiliate you, or put you at any risk.

**IT IS IMPORTANT FOR YOU TO KNOW:**

Should you notice any unusual behaviour, which makes you feel hurt, ashamed or neglected - you should talk about it to an adult you can trust. Even when such behaviour comes from people who should provide care and protect you!

**ONE MORE THING:**

All people who are responsible to offer you help when you need it - when someone hurts or abuses you in any way - will respect the following rules:

- They will always be willing to prevent and stop any form of abuse...
- They will provide space where you can speak in peace and at ease, and the persons who will help you...
- It is their obligation to offer you an opportunity to tell them everything that the abuser did to you - not to judge you, but to give you support and empower you to deal with it...

**DO NOT WORRY:**

Everything you say will be confidential and used only to protect you from further abuse. Adults are there to help and protect, and not to abuse or exploit you.
